

Stop paying for posts. Start paying for sales.

i The Elevator Pitch

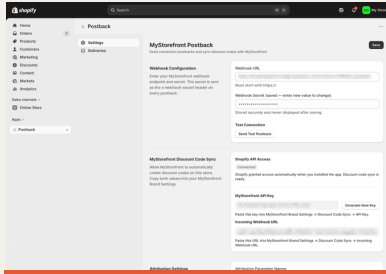

Most SA brands doing influencer marketing are taking a gamble. You pay up to 20K upfront, the post goes up and you can't prove it worked. If it flops, you get nothing in return.

MyStorefront changes that. It's a creator affiliate platform where creators share tracked affiliate links to your products; every click and sale is attributed back to them, and you pay commission on results, not on content.

HOW IT WORKS

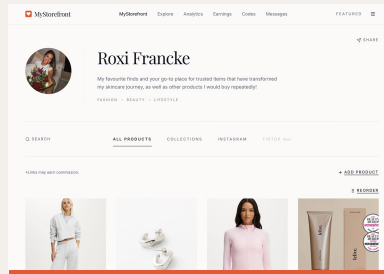

Set it up once. Let creators do the rest.

01. Connect your store

Install the Shopify or
WooCommerce plugin and set
your commission rate.

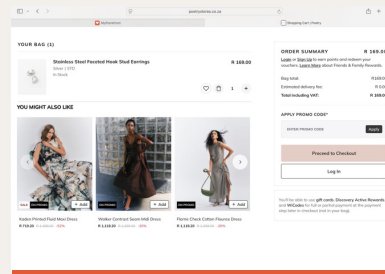

YOUR ACTION

02. Creators feature your products

Creators add your products to
their storefront and share their
affiliate links with their
followers.

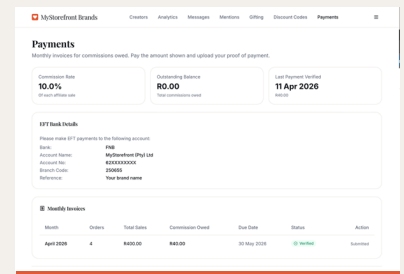

CREATOR'S ACTION

03. Shopper clicks and buys

A follower clicks the creator's
affiliate link and the sale lands
in your store. It's attributed to
that creator automatically.

AUTOMATIC

04. Commission releases

MyStorefront invoices you
monthly for commission on
confirmed sales; you pay us,
and we pay the creator.

How does this benefit you?

01 · THE CORE BENEFIT

**You only pay once
you make a sale.**

Creators only earn when you earn.

02

Creators help sell, not just post.

Creator income depends on sales, not engagement.

03

Links keep paying, so creators keep featuring.

Creators earn from your products, so they keep posting content about it.

04

Creators come to you.

Creators select products for their audience. No cold outreach.

05

Pay per outcome, not per post.

Commission on sales replaces fixed upfront fees.

06

Recommendations that convert.

Creators pick what to feature, so posts read as genuine and convert.

The data you'll see on every creator.

WHY THIS EXISTS

Meet the founder.

Roxi Francke

WHY I BUILT THIS

Creator affiliate platforms have been thriving in the US and UK for years. SA creators were putting in the same effort - building audiences, creating content, driving purchase decisions - but had no local platform to monetise it.

For creators: Turn the content they already make into income.

For brands: The first Creator Affiliate platform where brands only ever pay on results.

For shoppers: Trusted product recommendations from creators they follow, with a direct path to buy.
